

MISSION STATEMENT

The consistent commitment to **quality, the environment and occupational health and safety and compliance** with laws and other obligations has always been the aim of **PROWATECH S.r.l.'s corporate policy**.

We see ourselves as a full-service provider and offer our customers comprehensive solutions in the field of **renewable energies, with a particular focus on hydrogen systems**.

Economic efficiency, sustainability and innovation are always at the forefront. Proximity to our customers is particularly important to us. Optimal individual support, expert advice and the precise and timely completion of work are of great importance to us. We deliver the agreed service. **We are reliable, fast and flexible.**

PUNCTUALITY

Our team is in the right place at the right time. Reliable all year round.

FRIENDLINESS

Our team is always open and friendly towards our customers.

FLEXIBILITY

Our team responds flexibly to your needs in every situation.

CLEANLINESS

Is our figurehead and the basis for a positive image.

Motivated and competent **employees are essential for the execution of our orders**. It is therefore important to us to always promote our employees and retain them in our company in the long term.

A good working atmosphere and appropriate working conditions are the basis of our success. Ongoing, transparent communication with employees and their involvement, particularly on issues such as occupational health and safety and environmental protection, are very important to the company. It is a matter of course for us to create and maintain safe and healthy workplaces. We take appropriate protective measures and ensure that our employees behave correctly.

The protection of the environment, including the avoidance of environmental pollution, is of great importance to us. We aim to meet climate protection targets by continuously **reducing our consumption of resources**. Our company's material and substance flows are tracked and managed to ensure waste avoidance, recycling and appropriate disposal. Where possible, we use reusable packaging. We maintain fair relationships with our suppliers, which are designed for long-term partnerships wherever possible.

Compliance with legal requirements and any other conditions is a matter of course. The wishes and demands of external stakeholders are taken seriously.

The **continuous improvement of our processes and organizational system** in accordance with ISO 9001:2015, ISO 45001:2018 and ISO 14001:2015 is of great importance to us.

Bruneck, on 01.01.2023
